

Did you know

February is National Burn Awareness Week

Preventing burns in the environment includes:

Implementing Safety Protocols

Training Employees on Burn Prevention

Employer Responsibility

Implementing Control Measures

Reporting and Investigating Burn Incidents

Good housekeeping and storage

Burn Awareness Week: ELECTRICAL SAFETY

Never use electrical cords that are broken or frayed.

To prevent shock, keep electrical devices and outlets away from water.

Extension cords should be rated for extended use. Never use an indoor extension cord outdoors.

Stop, drop and roll if you or your clothing are on fire.

Burns First Aid

Remove jewellery and any clothing around the burn unless stuck to the skin.

Cool the burn under cool running water for 20 minutes, this stops the burning process. NEVER use ice, oil, butter or ointments.

Lightly cover the area with a lint free cloth or cling wrap to protect the skin.

Seek medical advice. In an emergency, phone 000.
